## PERSONAL PROJECTS

### E-Commerce Website (06/2020 - 11/2020)

- That project was clone of flipkart website. In that project i don't use any type of container box however i create a website using a simple html, css and javascript concept. That was my first project of web development.

### Food Order Website (01/2021 - 05/2021)

- That project was my first summer project. In that project I was create a one system for order food. That project in first time i use a firebase for data manage.

### Online Job Portal System (06/2021 - 11/2021)

- Is the Biggest project of my all other project. That project was create in our 2 people group. project two parts admin and jobseeker. jobseeker are post her resume and if interested to select that person so contact with admin side. Also admin is provide a multiple company. That type of concept of our created project.

### File Upload and download System (01/2022 - 05/2022)

- That was my PHP project and in that project i use a proper email OTP verification throw SMTP. I was inspiring to create that project on mediafire.com site.

### Resume Builder (07/2022 - Present)

- I am developing a resume builder for this project i use web frameworks like PHP, React, JS as a backend i use a phpmyadmin and i am still working on it.
